

VJ ELECTRONIX

A VJ Technologies Company

Budgetary Quotation

Date:	Feb 2007	Payable:	Net 30
Page No.:	1 of 1	Delivery:	NA
FOB:	Origin		
Terms:	VJ Technologies standard Terms & Conditions		

Item	Description	Part Number	Qty
1.	4.0 kW Plenum Hot Gas Bottom Heater Upgrade <ul style="list-style-type: none"> • for Summit 1100/1100HR Plus or later generation • <u>Kit only for SRT manufactured after Jan 2002 (serial number 1575 or higher)</u> 	1-91-10611	1
2.	SierraMate 32-bit Software (Ver 7.X) with AutoProfile <ul style="list-style-type: none"> ▪ Includes new PC with Windows XP ▪ New Graphics PCB ▪ I/O Controller PCB ▪ New interface cables and card 	9010-1818-00	1
3.	High/Low Programmable Top Heater Air Flow <i>Automatically reduces air flow to avoid displacement of lightweight components</i>	9001-0965-00	1
4.	Top Heater Plenum Upgrade <i>Provides improved thermal uniformity and repeatability. Facilitates simple calibration.</i>	9001-0964-00	1
5.	Adjustable Top Heater Down Stop <i>Allows easily adjustable positioning of the nozzle to a preset height above the board (manually operated).</i>	9100-0021-00	1
6.	Cooling Boost/Positive Flow Component Cooling <i>Automatically directs unheated air into the nozzle for rapid cooling of component. Allow precise control of the positive flow of cooling air through the pick up tube. Ideal for temperature sensitive components.</i>	9100-0093-00	1

Items 1, 2 and 4 are considered most important for lead free process. Items 3 and 5 are recommended for components smaller than 10 mm.

Please contact me if you have any questions or would like to discuss any of these options further.
